## Profiles

[aayush-puri](#)

[aayushpuri](#)

## Summary

Passionate and motivated B.Tech student specializing in Computer Science Engineering with a focus on AI & ML, seeking a challenging full stack web developer position to utilize my skills and experience in developing dynamic and responsive web applications.

## Experience

### CognoRise InfoTech

Front-End Developer Intern

🔗 <https://www.cognorise.com>

Worked as a front-end developer intern for one month online internship, focusing on enhancing user interfaces and improving the user experience of web applications.

2024-03-20 - 2024-04-20

## Education

### Sanskar College of Engineering and Technology

Computer Science Engineering (AI & ML)

8.1 SGPA

🔗 <https://www.sanskar.org>

2021-09-04 - 2025-06-01

B.Tech

## Projects

### Wanderlust listing website

a travel listing website using full stack technologies.

🔗 <https://web-development-project-yxvf.onrender.com/listings>

- Designed and developed a travel listing website using full stack technologies.
- Enabled users to search, view, and review travel destinations.
- Used Express.js for server-side logic and MongoDB for storing user data.

### Weather-App Website

- Created a weather forecasting web application using React.js.
- Integrated third-party APIs to fetch real-time weather data.
- Implemented responsive design for seamless user experience across devices.

### Quiz-App Website

- Developed an interactive quiz application using Express.js and Node.js.
- And show the result immediately when you tick the options.
- Utilized MongoDB for database management.
